Proposed Operation

→ *We did Road Repair & maintenance.
Geologic Mapping & Sampling.
Ground Gamma Survey.* *WLL*

Operations will be between June 15th and October 30th 1981, and could consist of exploratory drilling, soil sampling and other methods. The rig is track mounted. A minimum amount of ground disturbance is anticipated if used.

Access Routes

Access to the claims is off the County road from Simpson Springs to Callao and use of existing old claim roads.

Existing Disturbance

Prior to January 1, 1981 there has been numerous drill sites, mud pits, old drill holes and old claim roads.

Proposed Reclamation

When exploration is completed, and where practical, we will re-shape the ground that we have disturbed to the approximate contour of the surrounding ground.
